WORK EXPERIENCE

PKH AJSC

Java/Spring developer

HCM City | Jul 2020 - Nov 2020

- Performed quality tests on various sites to ensure cross-browser compatibility and mobile responsiveness
- Work alongside with other local agency to do research, development testing environment.
- Develop internal plugin reader for company product - integrate zalo third party api for user interaction.

PROJECTS

Personal portfolio - <https://www.daidesu.dev>

This project is a personal portfolio website built with Next.js and Chakra UI. It showcases all my relevant information includes side projects, bio, skills, and interests. It utilizes Next.js for server-rendered and static websites and Chakra UI for simple, modular, and accessible components.

RadioBox - <https://radiobox.daidesu.dev/>

This app combines the features of kanban boards with the added lofi-calm music and natural sound for a calming and focused work environment using youtube api.

GithubSpace - <https://githubspace.daidesu.dev/>

This project utilizes the GitHub API along with swr/chart to fetch and display personal GitHub profiles in a user-friendly format. View starred repositories, projects, activities, monitor and analyze contributions, making it easier to manage and showcase user work.

CodeEditor - <https://github.com/xuandai-py/code-editor>

Editor is designed to transform and bundle JavaScript/HTML/CSS - React code into a live view in the browser. Quickly view the results of code changes. Suppose to work on more languages and bundler in future.
